To Whom It May Concern,

I have known Ben Border for two years in my capacity as a teacher at Rochester High School. Ben took a Computer Science class and earned top grades in the course. Ben was also a student helper for a different computer science class that I taught and was very helpful in that capacity.

Based on Ben's grades, attendance, knowledge, and class participation, I'd rate Ben's academic performance in my class as superior. He was always engaged in class activities and was able to work in groups as well as independently. As a student helper Ben was able to use his knowledge to complete tasks in a timely manner. He was also willing and able to provide assistance to students when they needed help on Computer Science activities.

In conclusion, I would highly recommend Ben Border. His performance in my classroom as a student as well as a student helper has been exemplary.

Sincerely,
