To Whom It May Concern,

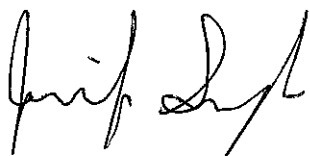

It is my pleasure to write a letter of recommendation for Ben Border. I have known this young man since he was a student in my Family and Consumer Science class at Rochester Community Middle School and now, I am his Work Based Learning teacher at Rochester Community High School.

Considering I am Ben's Work Based Learning teacher I have had the opportunity to get to know him as both a student and an employee. As a student Ben is helpful, hardworking, and inquisitive. He communicates well regarding his assignments and internship activities, and I have seen him grow into an independent and driven young man. He shows the same skills as an employee and also has a notable level of professionalism. I am impressed with how well he has adjusted from being a high school student to working in a career setting.

Over the years I have seen Ben grow into a polite, intelligent young man with great work ethic. He is self-motivated, organized, and willing to work hard to succeed. I have no doubt that he will be a successful adult. Ben has sought out multiple trainings and experiences in order to prepare himself for a career in technology. For example; he has worked as a video intern at the local TV station, a web developer (freelance), software developer for his internship, not to mention starting his own business in 2014. When Ben wants to know how to do something he researches and finds the answer. That authentic love of learning is something every teacher, and employer, is thrilled to see!

Ben's work ethic, inquisitive nature, and ambition are going to take him far in life, and I am happy to be a reference for him. If I can be of further assistance please call or email me using the information below.

Thank you,

Jennifer Snyder
